**Let's Use Our Innovative Patented Design Screw to surpass other brands**

Taiwan Precision Fastener (TPF) has been serving fastener industry for many years. TPF owns many patented screws. We develop many patents for wood screw to improve the performance of wood screw, such as to reduce torsional resistance, to increase pull-out strength, to prevent wood from cracking and to increase drill-in speed.

Taiwan Precision Fastener (TPF) is a full service fastener manufacturer. TPF pays the utmost attention to take care of customers' demand. No matter what project you are working on, we deliver the exact fasteners and tools to you on time. Therefore, you take care of your customers and we take care of all other details.

A world of total solutions is at your fingertips so send us your drawing or samples today. Let's get all jobs done together.
